**INSTRUCTIONS FOR MAKING YOUR
Pop-Up Flower Card**
CAN BE FOUND ON THE FOLLOWING PAGES.
YOU CAN ALSO WATCH THIS HOW-TO VIDEO:

<https://youtu.be/wdIrxurT19U>

INSTRUCTIONS FOR MAKING YOUR Pop-Up Flower Card

Materials: scissors, 4 sheets of flower parts printed in your color choice, glue

1. Cut out the three pieces (two layers of petals and one pistil/stamen section.) Do NOT cut out the page of green leaf-shaped structures because that will be the base of your card.

Do NOT cut this page →

2. Fold on the dotted lines.
Fold short dots inward like a valley. Fold long dots ----- like a mountain.

INSTRUCTIONS FOR MAKING YOUR Pop-Up Flower Card (PAGE 2)

3. Glue sections as shown. Shaded areas mean you should put glue on them.

Here is what the final card should look like:

INSTRUCTIONS FOR LABELING YOUR Pop-Up Flower Card

1. Notice the 12 white blanks. That is where you will write the flower part names.
2. Using a pencil and the flower diagram on the next page, pencil in the name of each flower part on the white blanks on your pop-up card.

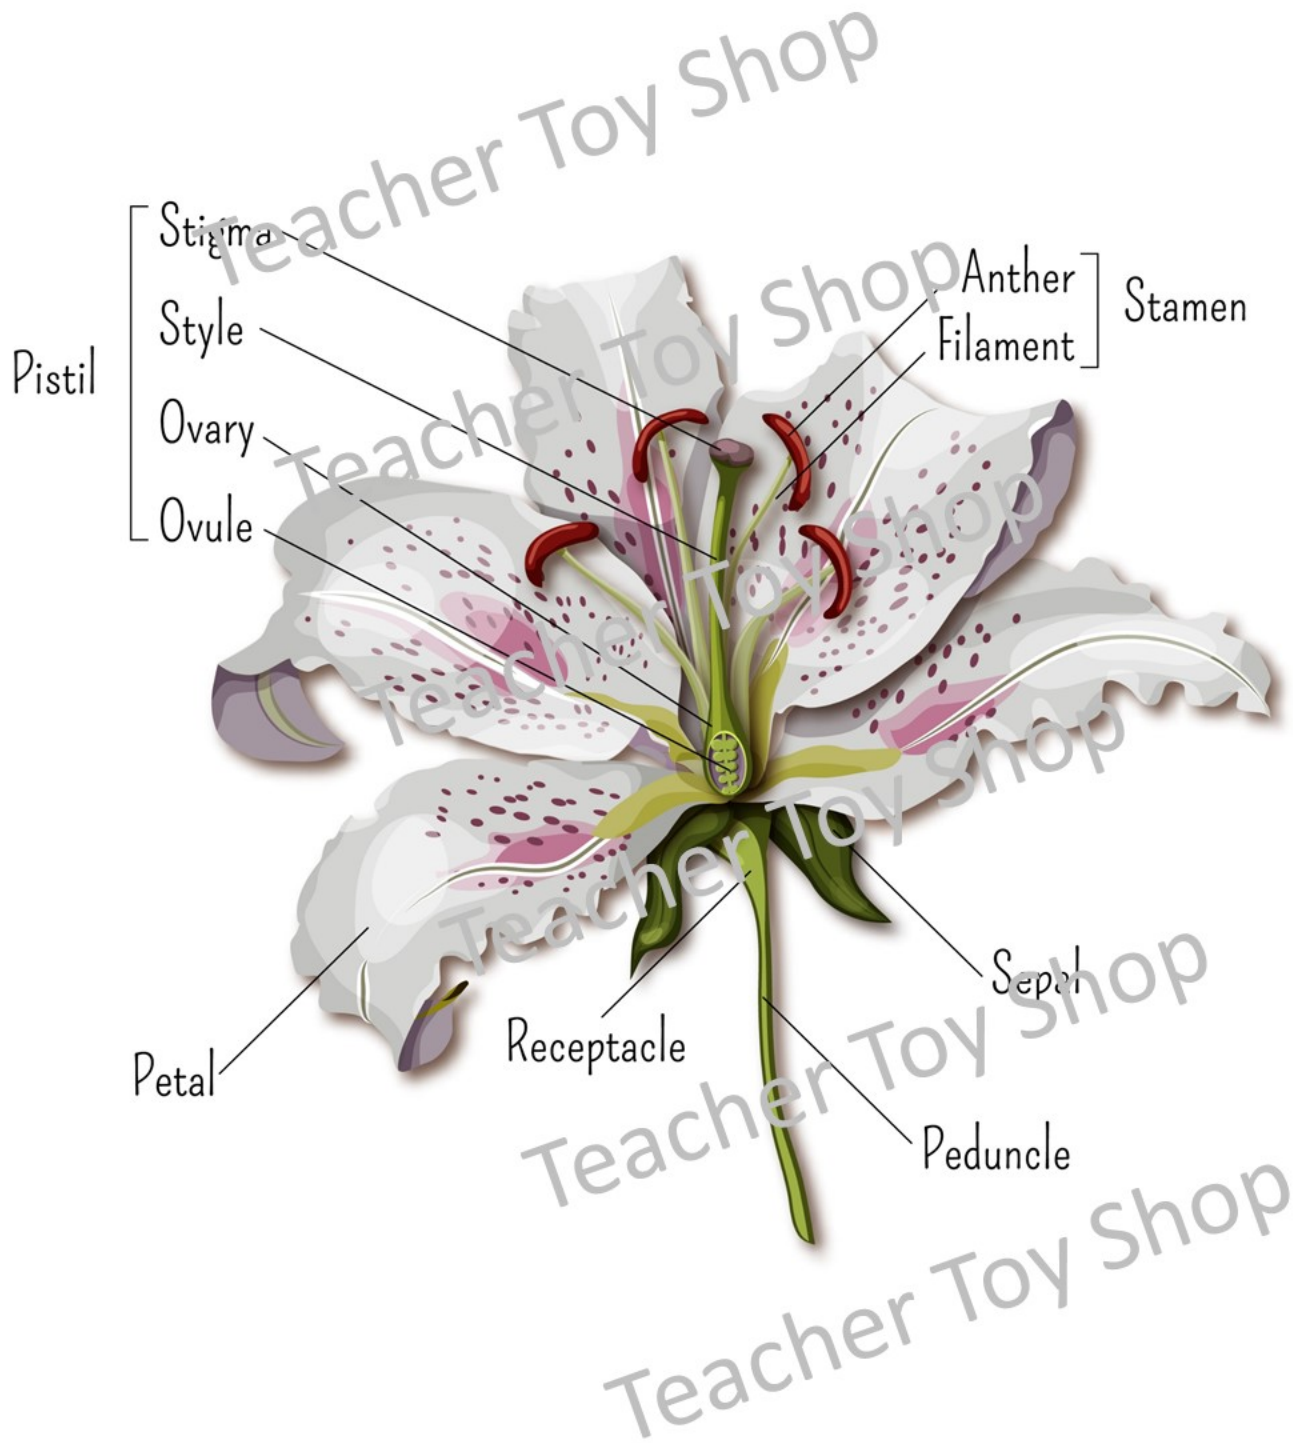

Anther
Filament
Petal
Ovary
Ovule
Peduncle
Pistil*
Receptacle
Sepal
Stamen**
Stigma
Style

*The pistil is the name for the entire female part of the flower. The space for labeling the pistil is at the **base** of the pistil.

The stamen includes the anther and the filament. The space for labeling the stamen is **the longest white box on one of the stamens.

Once you are satisfied that you have labeled it correctly, then trace over your pencil with a marker. (Hint: have someone check your work before you label with a marker.)
